When performed by a trained laser specialist the VersaPulse treatments are one of the safest and most effective treatments available to date.

Smart’s disappearance in 2002 both disturbed and inspired the nation as people everywhere rallied to support the search to find her.

Mood disorders are groups of symptoms relating to feelings of depression or mania.

Sixteen months later the judge fined him and sentenced him to a year and a day in prison. Another year went by, after a futile appeal, before he began to serve his sentence.
