Recklessness can come into “malicious” but the caselaw generally relates to cases where something untoward was planned but a different and more serious effect occurred.

On the same point condoms and the contraceptive pill when used in conjunction are possibly more effective to prevent such a situation.

I came home on Friday from a 50-hour work week and had to get up and go to work Saturday as well.

retinal threshold to red light in macular, paramacular, and peripheral retinal areas. all I said was

shatavari while breastfeeding

shatavari jam

shatavari kalpa in pregnancy
